COCHIN UNIVERSITY

Electronics and communication Engineering

Bachelor of technology 2004 - 2008

CERTIFICATION

ISTQB®
Certified Tester
Foundation Level

- Winner of Secure Code Warrior tournament, organized internally at ING.
- Winner of CEO Award for improving customer experience
- Won 'IPhone' for white paper presentation on "Performance and functional testing web services using Apache Jmeter".
- Received appreciation from the CIO office (Barclaycard US) for delivering complex customer retention workflows to prevent customer attrition due to the merger of two of United States' top two airlines.
- Won multiple 'star awards' for excellence in delivering quality products.
- Won "Capgemini FSGBU Excellence and Innovation" and "Capgemini Delivery Excellence" award.
- Won award for excellence in pioneering the automation of API regression suite, which enabled the organization to fast track into "Continuous Deployment".
- Won award for excellence in testing for implementing a SoapUI plugin to fetch relevant server logs which reduced RCA of defects, by 50%.
